**** Trial Closure Reminder ****

The TARDIS study will close on **30 September 2017**.

We would like to extend a big thank you to all sites for your continued co-operation in closing down the TARDIS trial. With your help, we've managed to resolve the majority of queries.

However, we still need your help with some remaining queries.

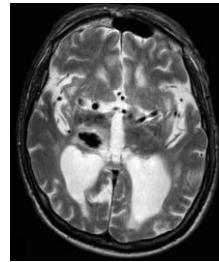

Outstanding Data

We are still trying to retrieve outstanding data

Data Queries

Please attempt to resolve any outstanding queries by responding to your coordinator's emails promptly.

Outstanding Scans

Don't forget to send us any outstanding clinical scans undertaken from onset to day 90. Scans can be uploaded or sent on CD to the trial office.

Closedown Documentation: 11 August 2017

- ✓ The final documentation to be completed is the WPD040 closedown document.
- ✓ If your site has not been closed down by a coordinator or remotely, this document is available on the website.
- ✓ Please remember documentation should be anonymised.
- ✓ Once completed the closedown document needs to be signed by the PI.
- ✓ If you have any problems completing the document please contact Chris Lysons or Robert Gray.

Outstanding Invoices: 31 July 2017

The date for outstanding invoices is looming and we would like to remind sites that all invoices must be received by this date to ensure that outstanding payments are made before the end of the trial. Any invoices either not confirmed, or received after this date will not be paid.
